Assembly Instructions for proper setup before
installing the PLR-8234.

DEPLOYPRO LOCK N GO LADDER CLAMP

ASSEMBLY SEQUENCE

NOTE: Ladder, Base/Rotation rack and mounted DPS are shown for illustrative purposes only. Customer-specific models and setup will vary.

- 1 Where applicable, remove your ladder and straps before installing the Clamp base.

NOTE: Your ladder will be needed in Steps 4-6 for final adjustments.

- 2 Slide the Clamp base into the open position as shown.

3

Install Clamp base with the included M8 Hardware into the DeployPro's pre-installed Strip Nuts as shown. Determine desired positioning on the DeployPro, and torque to 90 in-lbs.

4

Position your ladder back onto the Deploy Pro. Install the Z-Posts onto the ends of the Clamp base as shown below.

5

Finger-tighten Clamp Nuts only. Do not torque until Step 6.2

6.1

Using the release levers, slide the Clamp base together into the closed position on the ladder.

6.1

Slide Z-Posts in until they are approximately 1/4" from the sides of the ladder, and torque the Z-Post Clamp Nuts to 90 in-lbs.

NOTE: Ladder Straps will no longer be necessary, and may be discarded.
