*Three crossbar rack

Notes:
Crossbar spacing and the vehicle’s wheelbase length will dictate the ladders that can be carried. Crossbars can be spaced at six, seven, or eight feet.
A 3rd crossbar can be spaced four, five, six, or seven feet.
If carrying a long extension ladder and a short step ladder, a three crossbar rack is suggested. Contact Prime Design customer service for application specific questions.
Check the vehicle manufacturer’s recommendation for roof capacity weight limits.
A wide range of accessories are available including conduit carriers, light holders, and more.
